Preface

Germany and the Arab World maintain outstanding business relationships. The trade balance between them reached the brink of EUR 51 billion in 2022, recording an increase of 23.3% compared to the year 2021. These excellent relations are exemplified by the fact that the Arab private sector and sovereign funds have invested more than EUR 100 billion into the German economy, while more than 10,000 German companies are active in the Arab world.

Germany is the largest economy in Europe and the fourth largest economy in the world. Thanks to its central location excellent business climate, stability of the legal and political framework and the highly skilled workforce, Germany is a perfect hub for companies entering the European market. Around 4 million registered companies in the country contribute to the success of the German economy. More than 80,000 foreign companies are active in the country and provide employment to over three million people.

This diverse business climate and the stable macroeconomic environment make Germany an attractive business location and offers plenty of profitable business opportunities to foreign investors. According to figures from the United Nations, Germany ranks among the world's leading countries for Foreign Direct Investment (FDI).

German enterprises have established themselves as highly competitive global leaders in international business, making them reliable and future-oriented partners for successful joint venture projects worldwide. These enterprises are at the forefront of developing new and innovative technologies, driving global progress and change. The quality of products and services labelled 'made in Germany' are recognized for their excellence and exported all over the world, while German expertise inspires many companies and institutions worldwide.

Germany's dedication to innovation is evidenced by a 6% increase in its Research and Development (R&D) spending

in 2021, totalling EUR 101.3 billion. A significant portion of the funding - two-thirds - was provided by the private sector, while the remaining one-third was contributed by the public sector. Many of the industrial goods made in Germany deploy cutting-edge technology and are produced using digitized Industrie 4.0 processes, which have become increasingly widespread across the manufacturing sector prosperity.

Companies from the Arab world and Germany find a trustworthy partner in the Ghorfa Arab-German Chamber of Commerce and Industry. We pave the way for business relations to flourish. Ghorfa Structure

Founded on the initiative of Arab decision-makers and interested German business circles, the Ghorfa Arab-German Chamber of Commerce and Industry e.V. is the representative of all Arab chambers of commerce and industry in the Federal Republic of Germany. Its registration as a non-profit organisation took place on the 8th of December 1976 at the district court in Bonn. Since the 1st of August 2000, the Ghorfa is headquartered in Berlin.

As an integral part of the global network of Arab Chambers of Commerce and Industry and Arab-International Joint Chambers, the Ghorfa operates closely with the Union of Arab Chambers, the umbrella organisation for all Arab Chambers of Commerce and Industry.

The three main bodies of the Chamber – the General Assembly, Board of Directors, and Executive Board – work on a collective basis for their members' interests and help promote Arab-German business relations. Not only are major German and Arab enterprises members of the Chamber; numerous small and medium sized enterprises complete the top-class network. The General Assembly gives all members the possibility to actively shape the activities of the Chamber. The Board of Directors and the Executive Board equally consist of German and Arab members. This guarantees balance and mutual trust. Almost all presidents of the Arab Chambers of Commerce and Industry are represented in the board of directors and are personally committed to bringing forward the interests and goals of the Chamber. Arab ambassadors support the activities of the Ghorfa as board members or honorary members. According to the statutes of the
