Program: 12th Arab-German Energy Forum

The Global Energy Transition is accelerating a systemic change in international geopolitical relations. For several countries, not only in the EU and the Arab world, this transition brings about the rapid formation of partnerships and collaborations to implement inclusive and sustainable solutions posed by climate change.

The upcoming COP27 in Sharm El-Sheikh and COP28 in Dubai position Arab countries as agenda setters for the Global Energy Transition. COP27 will build upon and push forward the intensive level of dialogue and practical interaction with all non-state actors across the globe to ensure their participation and pledge for the COP27 outcomes.

The 12th Arab-German Energy Forum, taking place on 11th and 12th of October 2022 in the Maritim ProArte Hotel Berlin, presents an outstanding opportunity for decision-makers from the private and public energy sector community in the Arab World and Germany to gather, network and exchange.

To promote and further advance the promising cooperation between German and Arab business partners in the energy sector, the Ghorfa Arab-German Chamber of Commerce and Industry, in collaboration with its highly esteemed partners, is pleased to invite you to the 12th Arab-German Energy Forum.

We are looking forward to welcoming you to the event.
